About RegTech Insight Awards – APAC 2021

Congratulations to the winners of A-Team Group's first RegTech Insight Awards - APAC 2021, and thank you to our readers for nominating and voting for their preferred RegTech solutions providers. Thank you, too, to the RegTech Insight APAC advisory board for its valuable input to the awards.

The RegTech Insight Awards - APAC recognise both established solution providers and innovative newcomers. They highlight RegTech solutions that throughout the year have successfully improved firms' ability to effectively respond to evolving and ever more complex regulatory requirements across the global financial services sector.

The award winners were named on 28 October 2021, with categories ranging from best compliance as a service solution to best regulatory reporting solution, best data solution for KYC, best cloud solution for regulatory compliance, best regulatory change management solution, best ESG regulation solution, and more.

An editor's recognition award was also announced, with Jamil Ahmed, Chief Compliance Officer at HSBC Singapore, receiving an award for best RegTech practitioner.

Once again, thank you to everyone who took part in this year's RegTech Insight Awards – APAC, and to working with you and celebrating excellence in RegTech in APAC again in 2022.

Andrew Delaney
President & Chief Content Officer
A-Team Group

I'd personally like to thank our advisory board for their time and valuable input.

BearingPoint RegTech is now Regnology

Our vision: We provide the global platform connecting regulators and the industry.

Our mission: We enable the transparency and stability of the financial markets.

Winner: Best Vendor Solution for Tax Compliance

Winner: Best Vendor Solution for the Common Reporting Standard (CRS)

**Regnology's standard software solutions
for tax reporting and international client
tax reporting & calculation**

FiTAX is a standardized, ready-to-use tax reporting software that meets the reporting requirements of QI, QDD/871(m), FATCA, CRS/AEOI, TRACE and DAC6/MDR reporting. It enables financial institutions to fulfill tax reporting duties in more than 140 countries. For each country, the local guidance, specific rules, reporting formats and reporting deadlines are analyzed. FiTAX is constantly updated in accordance with the ever-changing tax laws and tax reporting requirements from tax authorities. With 20 years of experience in the development of tax reporting solutions, we offer a tried-and-tested, market-leading tax reporting software solution.

By using EasyTax, financial institutions can support their clients without the need to grow and maintain in-house tax expertise. EasyTax for example calculates account balances, income amounts, taxable capital gains and highlights deductible amounts and expenses and makes clients aware of reclaimable tax credits. Over 90 financial institutions already provide their clients with high-quality tax reports in more than 35 countries worldwide!

The EasyTax team
at Regnology

About Regnology

Regnology is a leading international provider of innovative regulatory, risk, and supervisory technology solutions, of AEOI and tax reporting products, as well as of services along the Regulatory Value Chain for financial services. We serve more than 7,000 financial services firms with reporting solutions. At the same time, we enable more than 50 regulators and tax authorities to collect data from 34,000 firms in 60 countries.

Let's talk about the next wave in AI, Machine Learning & Managed Services

SmartStream's fully integrated suite of solutions and platform services for middle- and back-office operations are more relevant than ever – proven to deliver uninterrupted services to critical processes in the most testing conditions. Their use has allowed our customers to gain greater control, reduce costs, mitigate risk and accurately comply with regulation.

With AI and machine learning growing in maturity, these technologies are now being embedded in all of our solutions and can be consumed faster than ever either as managed services or in the cloud.

Simply book a meeting to find out why over 70 of the world's top 100 banks continue to rely on SmartStream.

info@smartstream-stp.com
smartstream-stp.com

Winner: Best Data Management Solution for Buy-Side Regulatory Compliance

SmartStream has become a trusted partner that deliver automation and control the world's leading capital markets, buy-side firms and corporations. The demands of the industry particularly at times of transformation has allowed us to grow, introducing new solutions and winning multiple industry accolades.

SmartStream's solutions and services span the transaction lifecycle and incorporate the latest AI and machine learning technologies. These can be accessed in a variety of ways, for example, via APIs and micro-services, or deployed as managed services and cloud environments.

SmartStream has a wide range of solutions and services in the areas of:

- Cash & Liquidity Management
- Collateral Management
- Corporate Actions Processing
- Digital Payments and Investigations
- Fees and Expense Management
- Post Trade Processing
- Reconciliations and Exceptions Management
- Reference Data

Nathan Gee
Marketing Director

About SmartStream

SmartStream is a recognised leader in financial transaction management solutions that enables firms to improve operational control, reduce costs, build new revenue streams, mitigate risk and comply accurately with regulations. By helping its customers through their transformative digital strategies, SmartStream provides a range of solutions for the transaction lifecycle with artificial intelligence and machine learning technologies embedded – which can also be deployed in the cloud or as managed services.

Winner: Best Risk Calculation Engine for Regulatory Compliance

KYC Portal (KYCP) is one of the top Client Lifecycle Management solutions on the market that allows organisations of any size or type to rapidly collate all information relating to entities and applicants being assessed. All in a single, centralised, secure repository.

KYCP takes the guesswork and fragmented task delegation out of the due diligence and compliance process by building custom risk assessment programmes, infinite custom entity types, document requirements, information fields, client questionnaires and a fully check listed mandated set of processes.

KYC Portal's fully dynamic risk engine allows organisations to define any aspect of risk both regulatory and internal risk appetite. KYCP is constantly checking the risk, based on all factors that you feed the system with, in real time, instantly alerting the compliance team when the organisation is exposed. Whenever a change or new adaption of risk interpretation is applied, the system will instantly re-assess all the subjects in the database, re-calculate the risk and alert the compliance team should the subject have moved across the brackets (LOW, MEDIUM, HIGH and EXTREME) of the risk-based approach. Organisations can also choose the methodology of risk calculation within the programme, further augmenting the capability of choosing how risk-averse the organisation is to the service being provided.

When risk calculation is automated, the possibilities of automation are endless and most importantly the risk exposure of the brand is always safeguarded.

Kristoff Zammit Ciantar
Founder & CEO

About KYC Portal

Aquibix is an experienced solution provider with one clear objective; to deliver the best customer service and have earned a reputation for offering a flexible approach with years of experience in business analysis and technical architecture. We have taken a number of innovative products to market however our flagship product is KYC Portal – a real-time, risk driven Client Lifecycle Management platform with full ownership of policy automation - increasing operational efficiencies and redefining business relationship outreach.
